

**New Product – Key Facts**

**Product:  
Extra Cut Snips 304**

**Application:**

The 304 can be used for cutting sheet metal, but will typically be used for cutting softer materials.

**304 – Yellow grips for extra long straight cuts (Utility Model).**

**Serrated, drop forged blades**

- The 304 Utility Snips come with hot drop forged blades. These blades do not have the same strength and cutting performance as our Aviation Snips with cold-formed blades.

**Compound leverage**

- Compound leverage means reduced pressure and faster and easier cutting.

**Long life spring**

- Long life spring for increased durability and reliability.

**Extra strong splines**

- 2,66 mm alloy steel splines provide increased rigidity and less flexing.

**Longer Cut**

- The extra long blades of the 304 Utility Snips allows for 80 mm length of cut.

80mm

**Safety latch**

- Easy push-up safety latch allows one-handed operation.

**Soft grips**

- Over-molded Pro-touch soft grips provide superior comfort. Resists twisting and will not come off.

**Reduced hand span**

- 10% reduced hand span increases control and decreases fatigue.
