

New Product – Key Facts

**Product:**  
**Leader Wrenches**

- Are designed to meet torque loading

**Application:**

can be used for larger capacity pipes  
Used extensively in the oil, gas and civil Engineering sector.

**Forged jaws**  
Both jaws are made from drop forged steel with hardened and tempered teeth to resist wear and distortion

**Stronger**  
Leader wrenches are stronger than the Stillson wrenches and, size for size have a larger capacity

**Hardened Nut**  
The adjusting nut is hardened and tempered for maximum strength

**One piece casting**  
**One piece ductile iron casting,**  
which is very strong
